WORK ASSIGNMENTS

Please report to your job assignment 5 minutes early if possible. Pay attention to the schedule and to how much time you have between driving and working. You can usually count on at least 10 minutes in between but it can be tighter; plan accordingly.

Staging: : At this event, the track management will provide stagers at pit out. This job involves checking wrist bands, chin straps, Hans device straps, seat belts, doors, windows, tech line stickers, shirt sleeves, etc. and releasing the cars from the pit lane onto the track as directed by track control at the appropriate time. Staging workers will be located by the Track Control Station on Pit Lane. (see map) Please self-check before going to Pit-Out to make the process run smoothly.

Control: This involves: (Control1) Monitoring the track radio for on-track incidents, logging those events, and (Control 2) making announcements for staging (1st call, 2nd call and last call). If you have never done this job before and have any questions or concerns you are welcome to come up to the Tent in the West Paddock and check it out ahead of time.
